SUMMARY

Detail-oriented professional with two and a half years of experience troubleshooting, documenting, and resolving issues in a high-volume, procedure-driven environment, plus a background in software development and a B.S. in Game Development. Comfortable learning new systems quickly, explaining technical steps in plain language, and maintaining accurate records under deadline pressure. Bilingual in English and Spanish. Jackson Hole High School alumnus based in Jackson, WY.

PROFESSIONAL EXPERIENCE

Senior Warehouse Technician *Dec 2023 – Jul 2026*
Encore Global — Orlando, FL

- Diagnosed and resolved equipment and inventory discrepancies daily, documenting problems and resolutions in a work log to keep records audit-ready and searchable.
- Performed quality control and inspection checks against company standards, catching and flagging problems before they escalated further down the line.
- Served as a bilingual point of contact between supervisors and team members, fielding questions and resolving issues clearly and quickly under time pressure.
- Trained incoming staff on procedures and systems, breaking down technical steps into plain, repeatable instructions.
- Promoted to Senior Technician for consistent, dependable performance and sound judgment under pressure.

UI Developer (NDA Project) *Aug 2023 – Nov 2023*
StrawmanGames — Remote

- Built and debugged player-facing UI screens for an undisclosed game title using Unity (C#), working fully remote against team deadlines.
- Tracked tasks and issues through Trello within a small remote team, a workflow directly transferable to IT ticket tracking.
- Operated under a non-disclosure agreement, handling confidential project information with discretion.

UI & Audio Developer (Academic Project) *Apr 2023 – Jul 2023*
Full Sail University — Winter Park, FL

- Developed in-game UI and audio elements using Unity (C#) as part of a structured six-person team project.
- Learned and implemented VR functionality using the OpenXR kit under deadline, tracking progress using GitHub and JIRA.

Translator, Labor & Management *Jun 2016 – Sep 2021*
3 Guys Painting — Jackson, WY

- Translated between ownership and Spanish-speaking clients to prevent miscommunication and ensure accurate project scoping.
- Assisted with tracking spending and profits alongside hands-on work across job sites.
